Councillor Michael Walker
Toronto City Hall
100 Queen Street West, Suite B26
Toronto, ON. M5H 2N2

Dear Councillor Michael Walker:

I understand that you have been meeting with Trustee Matlow and expressed an interest in directing Section 37 benefits from development projects in your Ward to fund the Capital costs of a new pool at North Toronto C. I.

I am writing to confirm the Toronto District School Board's interest in accommodating a 25m swimming pool under the playing field as part of the current reconstruction project at North Toronto Collegiate Institute.

Under the current funding model TDSB does not receive capital and/or operating dollars to build, maintain or operate swimming pools and as such, cannot contribute to capital or operating costs for future pools. A permanent funding source for operating a new pool at NTCI will also have to be identified prior to the Board entering into any pool agreement with the City at NTCI.

We look forward to receiving updates from you on your efforts to secure capital funds for the new pool at NTCI and details on how the new pool operations will be funded.

Yours truly,

A handwritten signature in black ink, appearing to read "John Campbell".

John Campbell,
Chair of the Board

cc: Trustee Josh Matlow
Gerry Connelly, Director of Education
Sheila Penny, Executive Superintendent Facility Services
